

WEAR IT PROPERLY

The lap belt and shoulder belt should be secured across your hips and rib cage. The shoulder belt should be placed in the middle of your shoulder and NEVER behind your back or under your arm.

CLICK FOR THOSE YOU ♥

Your loved ones want you to make it home safely. Show them you care by buckling up.

LOVE ♥ CLICKS

VIRGINIA IS FOR BUCKLERS

MAKE IT A RULE

Insist everyone in your vehicle be buckled up before you start your trip. Don't assume all occupants will comply. Check to make sure all seat belts are fastened!

DON'T GET EJECTED

Buckling up helps you stay secure inside your vehicle. Not buckling up can result in being partially or totally ejected from the vehicle in a crash.

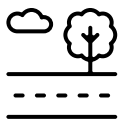

BUCKLE IN THE BACK

Seat belts reduce the chance of injury or death in every seat. Unbuckled back seat occupants can become missiles and impact other vehicle occupants in a crash.

It is simple. Seat belts save lives. Wearing your seat belt is the most effective thing you can do to protect yourself and others in the event of a crash.
Read over these tips to learn more about why Love Clicks.

FASTEN IT ON THE HIGHWAY AND COUNTRY ROAD

Seat belts work no matter how far, what speed, or what road you are traveling. Even if you are going slowly or staying close to home. In fact, most deadly crashes happen within 25 miles from home and at speeds of less than 40 mph.

BE THE BEST ROLE MODEL

You have a strong influence on your family members, friends, employees, and/or community. Show them that buckling up is important to you by wearing your seat belt on every trip. Day or night.

FOLLOW THE LAW

Virginia law requires everyone under age 18 to be properly secured in a safety belt or child safety seat no matter where they are sitting in the vehicle. In addition, Virginia law requires everyone in the front seat of vehicles to be properly restrained, regardless of age, otherwise those 18 and older may be ticketed.
